VI. Tour of Sites for current projects	6

Memorandum Minutes of the Meeting of the Commission of Fine Arts
held in Washington, D. C., 18 April 1957, at 9:30 a.m.

The Commission met, pursuant to notice, at 9:30 a.m., with David E. Finley, Chairman, presiding.

Present: David E. Finley, Chairman
 Felix de Weldon Douglas W. Orr
 Wallace Harrison Elbert Peets
 Mrs. Emily Muir Wm. G. Perry

 L.R. Wilson, Secretary
 Susan E. Bennett, Admn. Asst.
 Gilbert Halasz, Stenotypist

I. ADMINISTRATION

1. Minutes

The Chairman reported that the minutes of previous meetings were not yet ready but would be circulated as soon as possible.

2. Date of next meeting 23 May 1957.

3. New Executive Order - statue

The Chairman reported that since the last meeting there had been no change in the situation regarding the issuance of the Executive Order. Concern was expressed by the members at the delay.

4. Closer liaison with the National Capital Planning Commission. a. Representation at meetings of the National Capital Planning Commission.

The Chairman read a letter from Mr. Harland Bartholomew, Chairman, National Capital Planning Commission, saying that the Planning Commission would be very happy to have a member of the Commission of Fine Arts attend any meeting of the Planning Commission at which projects of mutual interest and concern were to be discussed. This invitation was accepted by the members and it was agreed that the Chairman would attend if possible; otherwise, Mr. Peets or Mr. de Weldon would represent the Commission of Fine Arts at such times. Exhibits A and B.

b. Representation at meetings of the Coordinating Committee, National Capital Planning Commission

In the same letter, Mr. Bartholomew invited the Commission to appoint a representative to attend the meetings of the Coordinating

Committee. The Secretary was designated to do so as an optional member.

5. Budget Estimates for 1959-1962.

The Chairman stated that the preliminary budget estimates for the Commission of Fine Arts had been submitted in the amount of \$35,000 for the fiscal year 1959. He stated further that no increases for the fiscal years 1960, 1961 and 1962 were anticipated at this time. The amount of \$35,000 for 1959 was approved.

6. Board of Architectural Consultants for Georgetown Replacement for Mr. Louis A. Simon

The Chairman reported that the appointment of Mr. Louis A. Simon, as a member of the Board of Architectural Consultants for Georgetown, is expiring and called for suggestions as to a successor. It was suggested that Mr. Henry Saylor, a retired architect, be appointed and this was approved by the members of the Commission. Exhibit C.

7. Shipstead-Luce Panel - appointment of three architects as members

In accordance with a plan approved at an earlier meeting of the Commission, the Secretary recommended that a three-member Panel of Architectural Consultants be appointed, and he nominated the following architects: Mr. Waldron Faulkner, Mr. Earl Gauger, and Mr. Louis A. Simon. The function of this Panel would be to meet at the call of the Chairman to assist the Secretary in processing the submissions under the Shipstead-Luce Act. After discussion, it was agreed to appoint the above-named architects as the Shipstead-Luce Panel for a trial period of one year. Exhibit D.

II. SUBMISSIONS

1. Commissioners of the District of Columbia

a. Department of Licenses and Inspections

1. Building applications under the Shipstead-Luce Act

The actions taken on the applications in Appendix 1 were confirmed. Of the five cases listed on Appendix 3, four were approved and one disapproved. Exhibits E and E-1.

2. Building applications under Old Georgetown Act

The actions of the Georgetown Board of Architectural Consultants on the applications listed on Appendix 2 were confirmed. Exhibit F.

b. Department of Highways and Traffic

1. Street Lights

The Chairman reported that the District of Columbia Highway Department was proceeding to replace the present street light standards

II. Submissions (continued)

with the new highway-type, gooseneck standards against the advice of the Commission. He read a letter which he had written to Brig. Gen. Thomas A. Lane, Engineer Commissioner, again requesting that this matter be given more careful study. The letter was approved. Exhibit G.

2. Destruction of Trees, etc.

The Secretary reported on the District Highway Department's project to remove all the trees on Rhode Island Avenue from 13th Street to Route #1 North, to provide for widening of the roadway along that strip. After a brief discussion, in which the inroads of traffic demands on the city streets were deplored, the members hoped that new trees would be planted.

3. Anacostia Freeway Bridges at Oxon Run

Chesapeake Street
Suitland Parkway

Mr. Tormey presented and explained the drawings for the three bridges over the Anacostia Freeway at Oxon Run, Chesapeake Street, and Suitland Parkway. After a technical discussion of the three bridges, the members approved the designs for the Chesapeake Street and Suitland Parkway Bridges, but recommended changes in the one at Oxon Run. Exhibit H.

2. Department of the Army, Heraldic Branch

a. U.S. Diplomatic Courier Service Medal

Colonel Cook presented the drawings showing the proposed U. S. Diplomatic Courier Service Medal. The medal is planned as a lapel pin which will be worn by the Couriers when they are on duty. The members thought the design in general was very pleasing but suggested that the lettering should read "U.S.A." to designate that it is the United States of America.

b. Distinguished Federal Civilian Service Medal

Colonel Cook also presented the drawings for the proposed Distinguished Federal Civilian Service Medal, authorized in Public Law 763, which is to be presented by the President. The members thought the medal very interesting and it was unanimously approved. Exhibit I.

3. American Battle Monuments Commission

a. Memorial in Honolulu, Hawaii

Mr. Harbeson presented and explained the revised drawings for the memorial and chapel in Honolulu, Hawaii, incorporating the suggestions made by the Commission at an earlier meeting. After a discussion, the members were glad to approve the general design but asked to have new drawings showing the sculpture in position.

b. East Coast Memorial

Mr. Harbeson also showed drawings for the East Coast Memorial and photographs of the work of sculptor Albino Monca in New York. He stated the American Battle Monuments Commission and the architect desired to engage Mr. Monca to do the sculpture for the East Coast Memorial and, if the members liked the examples of the artist's work, to have their approval of this appointment. Approval was given.

4. General Services Administration

Public Buildings Service

a. FOB #9, Civil Service Building

Mr. Schlossman stated that the drawings and model for FOB #9 had been restudied in accordance with suggestions of the Commission that more space be given to the courts. In order to do this, it was necessary to lengthen the wings, and the Planning Commission indicated it would not object to adding another story to the central area if it became necessary, in order to provide the space required. The members agreed the revisions were a great improvement.

b. FOB #6 General Office Building

Mr. Faulkner told the members the sketches and model were only in the preliminary stages, and that they were awaiting the decision of the Planning Commission before beginning a detailed study of the elevations. He then called upon Mr. Metcalfe to explain the model and the relationship of this to surrounding buildings. A discussion followed at which it was agreed the architects would make a further study and present revised sketches and a model at the next meeting.

c. FOB #8, Food and Drug Building

Mr. Johanson presented the study which had been made for the Food and Drug Building, FOB #8. The general feeling of the Commission was that all the buildings are too heavy and bulky for the area in which they are to be built. It was agreed that further studies be made and revised sketches presented at the next meeting of the Commission.

5. Regents of the Smithsonian Institution

a. Freer Gallery of Art: Purchases for collection

The Freer Gallery had nothing to submit at this meeting.

III. Submissions (Informal) Shipstead-Luce Act

1. Chamber of Commerce of the United States

Mr. Chatelain presented a rough sketch showing the buildings as they now exist on H Street, and the proposed addition to the Chamber of Commerce of the United States. After a technical discussion, the design was approved in principle

2. First Trinity Lutheran Church

Mr. Chatelain also presented a drawing of the First Trinity Lutheran Church Building to be erected at Third Street and E Street, N. W. The members were very pleased with the drawing, and also expressed satisfaction with the proposed statue of Martin Luther which is to be erected in the back just in front of the balcony.

IV. Congress- Legislation

1. S. 1236/85th Congress, National Academy of Design

The Chairman reported that there was now a bill pending in Congress to incorporate the National Academy of Design, and the Academy had requested the Commission to do whatever it could in support of this legislation. The Secretary was advised by Congressman Frederic R. Coudert of New York, that the House of Representatives did not look with favor on the bill, and there was nothing the Commission could do unless requested. Therefore no action was taken.

2. S. 1565/85th Congress, Arts and Sciences Medal

This bill calls for a medal to be given by Congress to persons in the Arts and Sciences fields. In the opinion of the members, the medal as proposed would be very confusing. They believed that if medals were to be given, there should be one for the Arts and one for Science. It was suggested that a letter be written making this recommendation and requesting more information as to how recipients were to be selected and by whom. Exhibit J.

3. H.R. 5565/85th Congress, a bill to establish a Commission on Metropolitan Problems and Urban Development.

This bill was discussed briefly but no conclusions were reached.

V. Project Reports and Discussion Topics

1. Report on lighting of Washington Monument

Mr. Peets reported that he inspected the experimental lighting of the Washington Monument which was under the supervision of Mr. Harry Thompson, Associate Superintendent of the National Capital Parks. Mr. Peets stated that the lighting was viewed from several vantage points the farthest being about two miles from the Monument. All in the inspection party were agreed that the lighting was too brilliant and should be reduced. The intensity of the lighting was reduced by ten points and everyone agreed it was much better. After a discussion of the subject, the members approved increasing the illumination of the Monument with the understanding that conferences will be held with officials of the National Capital Parks and others interested.

2. Bridge/Tunnel in Central Area

The Chairman told the members that he had appeared before the Senate subcommittee on the District of Columbia on 11 April 1957, and made a statement in favor of the tunnel under the Potomac River as against the bridge at Constitution Avenue. He also read to them a letter which he had sent to Senator Alan Bible, the Chairman of the Subcommittee, clarifying General Lane's statement to the Committee that the Commission of Fine Arts had approved the design for the bridge authorized in Public Law 704 which was enacted in 1954. This letter was included in the record of the hearings before the Committee and was approved by the members of the Commission of Fine Arts.

3. The Netherlands Carillon

The Chairman reported that the situation in connection with the Netherlands Carillon was a very happy one. The Ambassador and others at the Embassy as well as the architect, were most agreeable to making another design for the carillon, and this one will be enclosed with space for an elevator to be added later if it seems desirable.

4. National Capital Planning Commission's Plan for Washington

The Secretary reported that at the meeting of the National Capital Planning Commission earlier in the week, it had been decided to form a Committee to study the development of a new plan for Washington. The membership of the Committee has not yet been announced, but the hope was expressed that the Commission of Fine Arts would be represented. The Chairman agreed to speak to Mr. Bartholomew, Chairman of the Planning Commission regarding this.

5. The Evening Star article on Plan for Washington

The Secretary reported he had sent to the members a photostat of an article in THE EVENING STAR giving a resume of all the current projects in Washington. The article told in a condensed form what is going on in each one of the projects. There was no discussion on this subject.

6. Federal Office Building on Jackson Place

Mr. Orr stated there was nothing to report on this project.

7. American Institute of Architects Centennial

It was noted that the American Institute of Architects is holding its centennial celebration from May 13 to 17 in Washington. Several members indicated their intention to attend some of the sessions.

VI. Tour of Sites for Current Projects

1. National Cultural Center - Foggy Bottom
2. National Memorial Stadium - East Capital Street
3. Franklin D. Roosevelt Memorial
 - a. Naval Observatory
 - b. Potomac Park
4. Netherlands Carillon and Five Freedoms Memorial
5. Street lighting in the District of Columbia

Respectfully submitted,

L.R. Wilson
Secretary

NATIONAL CAPITAL PLANNING COMMISSION
WASHINGTON 25, D. C.

April 18, 1957

Honorable David Finley
Chairman, Commission of Fine Arts
Room 7000 Interior Building
Washington 25, D. C.

Dear Mr. Finley:

As an outgrowth of the meeting that I had with your Commission recently, the National Capital Planning Commission has voted to invite the Commission of Fine Arts to designate a representative of that Commission to participate, at the call of the Planning Commission, in any proceeding at Commission or committee level.

The purpose of such a designation, of course, would be to promote continuous close working relations and to coordinate action on matters in which there is mutual interest or concern.

The Commission has also voted to add to the optional membership of the Coordinating Committee a representative of the Commission of Fine Arts, with a right to vote on all matters in which that Commission is concerned.

The coordinating Committee meets regularly on the second and fourth Tuesday of the month at 10:00 A.M.

Sincerely yours,

/s/ Harland Bartholomew
Chairman

April 14, 1957

Honorable David Finley
Chairman, Commission on Urban Affairs
Room 7000 Interior Building
Washington 25, D. C.

Dear Mr. Finley:

As an outgrowth of the meeting that I had with your
Commission recently, the National Capital Planning Commission
has voted to invite the Commission of Urban Affairs to designate
a representative of that Commission to participate, at the
call of the Planning Commission, in any proceeding at Com-
mission or committee level.

The purpose of such a designation, of course, would be to
promote continuous close working relations and to coordinate
action on matters in which there is mutual interest or concern.

The Commission has also voted to add to the official mem-
bership of the Coordinating Committee a representative of the
Commission of Urban Affairs with a right to vote on all matters
in which that Commission is concerned.

The coordinating Committee meets regularly on the second
and fourth Tuesdays of the month at 10:00 A.M.

Sincerely yours,

/s/ Harland Bartholomew
Chairman

Encl. A

THE COMMISSION OF FINE ARTS
7000 INTERIOR DEPARTMENT BUILDING
WASHINGTON 25, D. C.

24 April 1957

Dear Mr. Bartholomew:

I have your letter of April 18th and greatly appreciate the invitation which you extend on behalf of the National Capital Planning Commission for the Commission of Fine Arts to designate a representative of that Commission to participate in any proceeding at Commission or committee level, the purpose of such designation being to promote closer working regulations and to coordinate action on matters of mutual interest. I shall be glad to represent the Commission of Fine Arts at any such meetings, and if I am unable to attend, I will ask Mr. Elbert Peets, 1339 15th Street, (telephone Columbia 5-2178), or Mr. Felix de Weldon, 2132 Bancroft Place, N. W., (telephone ADams 4-0518), and Mr. Linton R. Wilson, Secretary of this Commission, to represent the Commission.

I also would like to designate Mr. Wilson as a member of the Coordinating Committee, representing the Commission of Fine Arts with a right to vote on all matters in which this Commission is concerned. I understand the Coordinating Committee meets on the second and fourth Tuesday of the month at 10:00 A.M. Mr. Wilson's home address is 3611 Prospect Avenue (telephone North 7-1075), but he can always be found during the day at the Commission of Fine Arts.

With many thanks and kind regards, I am

Sincerely yours,

/s/ David E. Finley
Chairman

Honorable Harland Bartholomew
Chairman
National Capital Planning Commission
Washington 25, D. C.

THE COMMISSION OF THE
WOOD LUTHERAN CHURCH
WASHINGTON 25, D. C.

27 April 1957

Dear Mr. Bartholomew:

I have your letter of April 15th and greatly appreciate the invitation which you extend on behalf of the National Capital Planning Commission for the Commission of Fine Arts to designate a representative of this Commission to participate in and assist in the Commission on Committee Level, the purpose of which is to coordinate action on matters of mutual interest. I shall be glad to represent the Commission of Fine Arts at any such meeting, and if I am unable to attend, I will ask Mr. Elbert Peete, 15th Street, (Telephone Columbia 3-2178), or Mr. Felix de la Haza, 2132 Bancroft Place, N. W., (Telephone Adams 4-0518), and Mr. Linton A. Wilson, Secretary of this Commission, to represent the Commission.

I also would like to designate Mr. Wilson as a member of the Coordinating Committee, now working on the Commission of Fine Arts with a right to vote on all matters in which this Commission is concerned. I understand the Coordinating Committee meets on the second and fourth Tuesday of the month at 1:00 P. M. Mr. Wilson's home address is 2411 Prospect Avenue (Telephone WO 7-1072), but he can always be found during the day at the Commission of Fine Arts.

With many thanks and kind regards, I am

Sincerely yours

Yol David A. Finley
Chairman

Honorable Harold Bartholomew
Chairman
National Capital Planning Commission
Washington 25, D. C.

COMMISSION OF FINE ARTS
7000 INTERIOR DEPARTMENT BUILDING
WASHINGTON 25, D. C.

6 May 1957

Mr. Henry H. Saylor
American Institute of Architects
1735 New York Avenue, N.W.
Washington 6, D. C.

Dear Mr. Saylor:

I am delighted to know it is agreeable to you to assist the Commission of Fine Arts in fulfilling its responsibilities to preserve and maintain the architectural character of Georgetown.

Accordingly, you are appointed a member of the Board of Architectural Consultants for Georgetown for a period of three years, effective 7 May 1957, as authorized by Public Law 808-81st Congress.

The next meeting of the Board will be held at 2:00 p.m., 7 May 1957 in the Commission's offices, Room 7000 Interior Department Building, Eighteenth and C Streets, Northwest, Washington 6, D. C.

For the Commission of Fine Arts:

Sincerely yours,

David E. Finley
Chairman

THE COMMISSION OF FINE ARTS
7000 INTERIOR DEPARTMENT BUILDING
WASHINGTON 25, D.C.

21 May 1957

Dear General Lane:

On May 22, 1956, I wrote you of the concern which the Commission of Fine Arts felt with reference to the plans of the District of Columbia Commissioners for replacing the monumental lightint standards in the central area of the city with highway type lighting standards. We discussed this matter with you at a meeting of the Commission of Fine Arts on October 10, 1956, and on the following day I wrote you again, giving the views of the Commission with reference to this matter.

In that letter I said: "In the opinion of the Commission, the present standards are both handsome and suitable for the purpose as regards design. We recognize, however, that you may wish to secure greater intensity of lighting and that this may involve a change in the design of the present fixtures. It seems important to the members of the Commission that, whatever design may be selected, the lighting fixtures should be uniform throughout the city and of the best design that can be achieved for this purpose. We feel that the highway-type standards, which you are presently introducing, are not adequate for use in the Nation's Capital. We hope, therefore, that you will take steps to secure a design which will meet the criteria we have in mind for this city.

"The Commission will be sorry to see a new type of lighting standard substituted for the ones presently in use. They also feel that, in view of the large expense over a period of several years which will be involved in making such a change, a plan should be made which would justify the expense involved and that such a plan should be submitted and have the approval not only of the District Commissioners but the Commission of Fine Arts and the Congress when appropriations are made for the new lighting standards."

I have had no reply to this letter. At the last meeting of the Commission, held on April 18th, the members reiterated their concern at the manner in which this important problem is being handled by your Commission. They were particularly concerned because no effort is apparently being made to adapt the present lighting standards to a higher lighting intensity, if that is what you wish to secure for the lighting of certain streets. It was also a matter of concern to the members that, notwithstanding the advice of the Commission in this matter, the highway-type lighting fixtures, such as might be suitable for parking lots, suburbs, or highways, have been introduced into the central monumental area of the city and

THE DISTRICT OF COLUMBIA
YOUNG INTERNATIONAL BUILDING
WASHINGTON, D.C.

Dear Sir:

Dear General Lane:

On May 22, 1936, I wrote you on the subject of the proposed
The Arts felt with reference to the plans of the District of Columbia
Commissioners for replacing the monumental lighting standards in the
central area of the city with highway type lighting standards. In the
enclosed letter which was a meeting of the Commission of the District
in October 1936, and on the following day I wrote you again, I think
the views of the Commission with reference to this matter.

In that letter I said: "In the opinion of the Commission, the proposed
standards are both handsome and suitable for the purpose of general lighting.
We recognize, however, that you wish to secure a change in the style of
lighting and that this may involve a change in the location of the present
fixtures. It seems important to the Commission that the new standards, when
ever design may be selected, the lighting fixtures should be uniform
throughout the city and of the best design that can be achieved for the
purpose. We feel that the higher type standards, which you are proposing
introducing, are not adequate for use in the National Capital. We hope,
therefore, that you will take steps to secure a design which will meet
the criteria we have in mind for this city."

"The Commission will be sorry to see a new type of lighting standard
substituted for the one presently in use. They also feel that the
of the large expense over a period of several years which will be involved
in asking that a change in design should be made. The Commission is not
expense involved and that such a change should be made. The Commission
approval not only of the District Commissioners but the Board of the
Arts and the Congress when appropriations are made for the new lighting
standards."

I have had to reply to the letter. At the same meeting of the
mission held on April 22, 1936, the members of the District of Columbia
Commissioners in which this question was being handled by your Commission.
They were particularly concerned because no design is known to be
made to adapt the present lighting standards to a higher lighting standard.
if that is what you wish to secure for the lighting of certain streets.
It was also a matter of concern to the members that, notwithstanding the
views of the Commission in this matter, the highway-type lighting fixtures
turns, such as might be suitable for parking lots, suburbs, or highways.
have been introduced into the central commercial area of the city and

Brig. Gen. Thomas A. Lane
21 May 1957

page 2

have replaced the type of lighting fixture which has heretofore been uniform throughout the city. We now find these highway-type standards facing the Ellipse, the Pan American Union, the east facade of the Interior Department, and the National Headquarters of the American Red Cross.

The Commission of Fine Arts is not willing, without protest to see the present lighting fixtures of Washington replaced in this casual manner so that eventually it will be impossible, except at great expense, to light the city in a dignified manner as befits the Capital of a great nation. We hope, therefore, that steps will be taken to remove the new lighting fixtures in the areas mentioned above and replace them with the lighting fixtures which have heretofore been approved and proved adequate for many years.

As I said in my letter of October 11, 1956, the members of the Commission of Fine Arts would like to work in close cooperation with you and other District officials in reaching a solution of problems that arise from time to time affecting the appearance of the City of Washington. We feel that a change in the design of lighting standards is an important undertaking and one deserving of our best thought.

If study for a greater intensity of lighting is to be made, we would be glad to work with you on this problem, providing the present fixtures are adapted for this purpose or new fixtures for the entire city are designed from the point of view of greater intensity of lighting and in a way that will conform in dignity and beauty of design to the special requirements of this city as the Nation's Capital.

Sincerely yours,

David E. Finley
Chairman

Brig. Gen. Thomas A. Lane
Engineer Commissioner
for the District of Columbia
Washington, D. C.

010110101

GOVERNMENT OF THE DISTRICT OF COLUMBIA
EXECUTIVE OFFICE
WASHINGTON 4, D. C.

June 7, 1957

Mr. David E. Finley
Chairman, Commission of Fine Arts
Interior Department Building
Washington 25, D. C.

Dear Mr. Finley:

Following our meeting of last October 10th on the subject of lighting standards, I asked our Director of Highways to prepare a lighting plan for the District of Columbia which will provide guidance for our program for many years into the future. This plan should weigh fully the importance of lighting aesthetics to the National Capital and the sound application of modern lighting principles and techniques.

Pursuant to these instructions, the Director has consulted with the Washington Chapter of the AIA and has obtained its assistance in establishing an advisory committee of competent architects and illuminating engineers to examine our entire program and make recommendations upon it. The members of this Advisory Committee are: Frank Duane, AIA; Claude R. Engle, jr., General Engineering Associates; A. D. Harrington, General Electric Corp.; Philip B. Clark, Line Materials Industry; Leonard Leache, Potomac Electric Power Co.; E.B. Karns, Westinghouse Electric Co.; and Herbert Friede and Charles Dunn of the District of Columbia Electrical Department.

Pending receipt of the report of this committee and action upon it, the Department of Highways is maintaining the status quo by replacing damaged and defective standards by others of the same type and by limiting general replacement to major new highways where the old standards are clearly unsuitable. These do not involve monumental areas.

The Committee has a difficult task and is working diligently at it. I cannot forecast the time of its report, but can assure you it will be made as soon as practicable. When it is received I shall look forward to consultation with your Commission before action is taken by the Board of Commissioners.

I have been very negligent in failing to keep you informed of our work on this project and can only plead the pressure of other duties. I am sorry that my silence has understandably caused you concern.

With kindest regards,

Sincerely yours,

/s/ T.A. Lane
Brig. Gen. U. S. Army
Engineer Commissioner

GOVERNMENT OF THE DISTRICT OF COLUMBIA
EXECUTIVE OFFICE
WASHINGTON 25, D. C.

June 7, 1937

Mr. David E. Feltner
Chairman, Commission on the
Improvement of the
Washington 25, D. C.

Dear Mr. Feltner:

Following our meeting of last October 1936 on the
subject of lighting standards, I asked our Director of
Public Works to prepare a lighting plan for the District of Columbia with a
view to guidance for our program for many years into the future. This
plan should weigh fully the importance of lighting standards to the
National Capital and the sound application of modern lighting
principles and techniques.

Pursuant to these instructions, the Director has consulted with
the Washington Chapter of the AIA and has obtained the assistance of
establishing an advisory committee of competent architects and
lighting engineers to examine our entire program and make
recommendations upon it. The members of this Advisory Committee are: Frank
Dunne AIA; Claude R. Wolfe, Jr., General Electric Company; William P. Clark, AIA;
A. D. Harrington, General Electric Company; Philip R. Clark, AIA;
Materials Industry; Leonard Leach, Potomac Electric Power Co., E.E.
Karns, Westinghouse Electric Co., and Herbert Fitch and Charles Dunn
of the District of Columbia Electrical Department.

Pending receipt of the report of this committee and its
the Department of Public Works is maintaining the area as a
hazardous and defective standards by means of the same type
lighting general replacement to major new highways where the old stand-
ards are clearly inadequate. These do not involve permanent errors.

The Committee has a difficult task and is working diligently
I cannot forecast the time of its report, but can assure you it will
be made as soon as practicable. When it is received I shall look
forward to consultation with your Commission before action is taken
by the Board of Commissioners.

I have been very negligent in failing to keep you informed of our
work on this project and can only plead the pressure of other duties.
I am sorry that my absence has unfortunately caused you concern.

With kindest regards,

Sincerely yours,

W. A. Lane
Chief, Gen. U. S. Army

THE COMMISSION OF FINE ARTS
7000 INTERIOR DEPARTMENT BUILDING
WASHINGTON 25, D. C.

3 May 1957

Mr. Gerard I. Sawyer, Chief
Office of Planning Design and Engineering
Department of Highways
402-A District Building
Washington 4, D. C.

Dear Mr. Sawyer:

During the course of the last three meetings of the Commission of Fine Arts on 24 January, 14 March, and 18 April 1957, the members have met with you and your representatives to discuss the preliminary designs which are being prepared for the nine highway structures required for the Anacostia Freeway. At each of the meetings, perspective drawings were presented for study as follows:

1. Overpass at Pennsylvania Avenue
2. Underpass at Eleventh Street Interchange
3. Overpass at Oxon Run Bay Bridge
4. Overpass at Suitland Parkway Interchange
5. Overpass at Chesapeake Avenue

In each instance, minor suggestions were made which your architect, Mr. Joseph Tormey, said would be incorporated into the final drawings. All the projects were approved in principle as presented, except the Pennsylvania Avenue Overpass. In this instance, the members of the Commission considered that the design appeared cramped and the relation of the abutments to the sidewalk gave a constricted impression which was undesirable in connection with this important radial avenue in the plan of the Nation's Capital. It was our impression that the design would be restudied and resubmitted.

The members of the Commission asked me to tell you that they found it difficult to relate the various structures to the overall plan for the Freeway, since no general layout of the entire system of roadways was presented. They hope that an overall plan can be shown in conjunction with the next designs that are presented.

The next meeting of the Commission will be held 23 May 1957, and time will be set aside for you to present designs for (a) Anacostia Freeway Bridge at Portland Street; (b) Railroad Bridge and Viaduct, east of Second Street to and including treatment of South Capitol Street.

Sincerely yours,

/s/ L. R. Wilson
Secretary

Washington 25, D. C.

18 April 1958

Honorable Lister Hill, Chairman
Committee on Labor and Public Welfare
United States Senate
Washington 25, D. C.

Dear Mr. Chairman:

The Commission of Fine Arts has given careful consideration to your request for a report on S. 1565-85th Congress, a bill "To establish a medal to be known as the Congressional Medal for Arts and Sciences, and for other purposes."

The members of the Commission hope that S. 1565 will not be enacted by the Congress.

They have asked me to write you that they believe that the present custom of honoring individuals by special legislation is a more satisfactory way to ensure that outstanding and deserving achievements be cited. Each year there are several private organizations and foundations which award honors in Arts and Letters, and the proposed Congressional awards in the same field would, as a matter of course, compete with such long-established awards. The awarding organizations have developed strict standards for the selection of recipients. As outlined in the proposed legislation, we fear that the number of outstanding and deserving candidates would gradually be exhausted, and that there would probably have to be repeat awards causing the medal gradually to dwindle in importance. This is not true of the present Congressional Medal of Honor which is comparatively rarely awarded, and then only on the display of great valor, and after meticulous examination of the circumstances, to members of the Armed Services. It also carries some monetary award with it.

It is further believed that American artists could be more suitably honored by the creation of a greater number of opportunities for them to complete projects for the adornment of the exteriors and interiors of Federal buildings.

In recent years awards to scientists have tended to overshadow awards to artists. It would appear that artists now seem to have fewer chances to compete for awards in their fields, on an equal basis with scientists, and the Federal Government itself has appropriated few funds for

Honorable Lister Hill

18 April 1958

decorative art in public buildings in recent years. Encouragement, by means of more commissions for the production of more works of art, would seem, in our opinion, to render more encouragement to artists than any establishment of a system of awards would do.

The Bureau of the Budget has advised that there is no objection to the submission of this report to your Committee.

For the Commission of Fine Arts:

Sincerely yours,

L. R. Wilson
Secretary

EXECUTIVE OFFICE OF THE PRESIDENT
BUREAU OF THE BUDGET
WASHINGTON 25, D. C.

MAR 31 1958

My dear Mr. Finley:

This will acknowledge Mr. Linton R. Wilson's letter of July 26, 1957, transmitting copies of a report which the Commission of Fine Arts proposes to present to the Chairman of the Senate Committee on Labor and Public Welfare on S. 1565, a bill "To establish a medal to be known as the Congressional Medal for Arts and Sciences, and for other purposes."

This bill has to some extent the same objectives as those recommended by the President in his State of the Union Message of January 6, 1955, for the establishment of a national award honoring civilians for distinguished civilian achievement. However, the Bureau of the Budget believes that these objectives would be more completely achieved by enactment of S. 2384, a bill "To provide for the conferring of an award to be known as the Presidential Medal for Civilian Achievement, and for other purposes." This bill embodies the recommendations of the President's Committee on Civilian National Honors which was endorsed by the President and whose report and draft legislation, embodied in S. 2384, was transmitted to the Congress by the Bureau of the Budget on June 25, 1957.

While there is no objection to the submission of such report as you may deem appropriate, you may wish to reconsider your proposed report in the light of the enclosed letter from the Director of the Bureau of the Budget to the Chairman of the Committee which recommends that S. 1565 not be enacted and that in its place favorable consideration be given to S. 2384 which is in accord with the program of the President.

Sincerely yours,

Phillip L. Hughes

acting Assistant Director for
Legislative Reference

MAR 31 1958

My dear Mr. Chairman:

This will acknowledge your letter of March 18, 1957, inviting the Bureau of the Budget to comment on S. 1565, a bill "To establish a medal to be known as the Congressional Medal for Arts and Sciences, and for other purposes."

The Bureau of the Budget is in accord with the objective of honoring outstanding civilian contributions but we believe this would be more effectively achieved by the enactment of S. 2384, a bill "To provide for the conferring of an award to be known as the Presidential Medal for Civilian Achievement, and for other purposes," which embodies the recommendations of the President's Committee on Civilian National Honors.

The establishment of a suitable award in recognition of outstanding civilian contributions was recommended by the President in his State of the Union Message delivered to the Congress on January 6, 1955. The President's Committee on Civilian National Honors in preparing its report, which was endorsed by the President, took into account the practices of other nations, the special needs of the United States, and previous actions of Congress to establish a system of awards, and other related facts and considerations. This report and a draft bill prepared by the President's Committee, later embodied in S. 2384, were transmitted by the Bureau of the Budget to the President of the Senate and Speaker of the House of Representatives on June 25, 1957.

Accordingly the Bureau of the Budget recommends that S. 1565 not be enacted and that in its place your Committee give favorable consideration to S. 2384 which is in accord with the program of the President.

Sincerely yours,

- 1:00 p.m. LUNCH IN SECRETARY'S DINING ROOM
- 2:00 p.m. RECONVENT, ROOM 7000 INTERIOR DEPT. BLDG.
- 2:15 p.m. 11. D. C. HIGHWAY DEPT. SUBMISSIONS (Mr. Gerard I. Sawyer, Chief, Off. of Planning, Design & Engineering):
- (a) Railroad Bridge & Viaduct from about 200 feet east of 2nd St. to & including the treatment of South Capitol St. (Mr. John Harbeson; Cannett & Fleming)
 - (b) Anacostia Freeway Bridge at Portland St. (Ewing & Torrey).
 - (c) *Anacostia Freeway Bridge at Penn. Ave.*
- 3:00 p.m. 12. AMERICAN BATTLE MONUMENTS COMMISSION - Model of West Coast Memorial (Col. J. A. Walker, ABMC; Mr. John Harbeson).
- 3:30 p.m. 13. OLD GEORGETOWN ACT SUBMISSION: Preliminary - Georgetown University - proposed Boys Dormitory at 37th & Prospect Ave., NW (Mr. Walter H. Macomber).
- 3:45 p.m. 14. DISCUSSION:
- (a) Legislation to be reported on:
 - (1) S. 930/85th Congress, a bill "To provide for the establishment of a Federal Advisory Commission on the Arts, and for other purposes."
 - (2) S. 1715/85th Congress, a bill "To provide for the establishment of a Federal Advisory Council on the Arts, and for other purposes."

(b) Report by Mr. Finley on visit of Admiral Wm. F. Halsey & Lt. Cdr. George Beck, Aide, re the "Save the Enterprise" project.

(c) Report by the Secretary on attendance as optional member of NCPC Coordinating Committee.

(d) Report on investigation being conducted by General Accounting Office into situation surrounding replacement of present street lighting by the D. C. Govt.

(e) Decoration of Public Buildings.

15. SMIFSTEAD-LUCE ACT SUBMISSIONS - formal (See Appendix 3).

14. (f) Report by Chairman of his appointment as member of Operations Coordinating Board Cultural Presentation Committee

Mr. Staats

June 1957

Miss

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

2. In the second part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

3. In the third part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

4. In the fourth part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

5. In the fifth part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

6. In the sixth part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

7. In the seventh part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

8. In the eighth part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

9. In the ninth part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.

10. In the tenth part, we consider the case of the existence of solutions of the system of equations (1) for arbitrary values of the parameters $\alpha, \beta, \gamma, \delta, \epsilon, \zeta, \eta, \theta, \iota, \kappa, \lambda, \mu, \nu, \xi, \omicron, \pi, \rho, \sigma, \tau, \upsilon, \phi, \chi, \psi, \omega, \varphi$.
